Q1

Name

William "Bill" Hardt

Q2

What race are you running in? (LD? House? Senate?)

LD#30 House

Q3

Email

bill.hardt9@gmail.com

Q4

Phone Number

9286108328

Q5

Children who have year-round health insurance do better in school, are more likely to graduate from high school, are healthier, and earn more in adulthood. There are approximately 161,000 uninsured children in Arizona. If elected, how would you help ensure that all children and families have access to the health care that they need?

I do NOT support a single payor health care system. For those who fall through the system cracks it is society's responsibility to care for them.

Q6

We know that a child's earliest years, birth to age 8, are the most important for the development of their brains. High-quality early childhood experiences can enhance that development. How can the state take a role in helping parents give their children the best start in life?

Using school choice vouchers along with school meals and latch key programs. Most importantly, parent's rights should be the primary focus of education.

Q7

Many families in Arizona are struggling. Housing is becoming increasingly unaffordable, nearly one in four children live in poverty, and resources that used to be available to help families are no longer there. Research shows that when access to safety net resources are low, foster care populations are high. What is your plan to help children and families get the resources and services they need to keep them out of the child welfare system?

Within the budget abilities of the State, what can be provided should be done!

Q8

Arizona has been among the bottom states in per pupil K-12 funding for the past decade which has resulted in severe challenges including teacher shortages, crowded classrooms, and insufficient student support services. How will you ensure that students in every neighborhood have access to quality, well-funded education in Arizona

I recommend returning all educational decisions to local school boards and removal of all State and National school board associations as well as the Federal Department of Education. My wife was a career teacher and what has happened to the Education industry has filled the pockets of non-educational individuals!

Q9

Arizona's elected leaders have created a tax code that is upside down and regressive— meaning that those with low incomes pay a much higher share of their income in taxes compared to Arizona's highest income earners. If elected, what will you do to make sure that wealthy and corporations pay their share of taxes?

That is not true! With a flat tax the more a person or corporation makes, the more tax they pay!

Q10

As the cost of living is rising faster than wages in Arizona, many households are struggling to afford basic needs. If elected, what are three ways that you will improve economic well-being for Arizonans?

Stop inflationary spending! Decrease regulation! Reduce the size of government!
